

Transition Planning for Next-Generation Assessments

CONDUCT NEEDS ANALYSIS	DEVELOP TRANSITION STRATEGY	ENSURE INTEROPERABILITY	COMMUNICATE PROACTIVELY	ANTICIPATE ONGOING CHANGE
Create a detailed assessment-design roadmap.	Create a multi-year transition plan.	Evaluate and understand state-specific portability and interoperability needs.	Create a forum for sharing technical knowledge at the state and local level .	Establish a plan for ongoing needs analysis.
Conduct a technology infrastructure survey of schools, district, and states.		Take an active role in creating cross-state interoperability specifications.	Create a training plan for both assessment and technology staff within the state.
