### I. Why & What

Why	What problem(s) is your state trying to address through developing guiding principles? In what ways / with what groups would principles help your state?

What	What types of guiding principles would best help you address the problem(s) you identified above? What state examples resonated with you for applying to your state? What are additional types of principles your state may need?

## II. Full Group Discussion

Notes	Use this space for any observations from the full group discussion.

## III. Who & How

Who	Who do you need to engage and involve in the discussion of building guiding principles? Do you need different participants for brainstorming than for vetting and approval?

How	What are the best ways to engage the people you identified above? Are there existing meetings or structures you can leverage? What timeline?

## IV. Next Steps

Next Steps	What is the one key action you will take to advance the work? List other steps and their associated dates or date ranges.
